40 acres

/Master site planning
 /Graphic design

Coppin State University is one of the institutions in the University System of Maryland. Established in 1900, this urban liberal arts school is located in downtown Baltimore and has a reputation for service to the community. The first decade of the 21st century will be characterized by tremendous growth of the school's facilities. The campus will not only double in area from the present 20 acres, but 10 new buildings will also be added to the current roster. Other buildings will be renovated or demolished.

The Master Site Plan includes new public outdoor spaces, new buildings, two new parking garages, and a redesigned Campus "front door" on both the north and south sides of West North Avenue.
